Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

communication source so as to guide the generation of itself or another molecule based on the signal received from the external communication source, thereby, allowing the "logic web" of molecules performing their respective data processing methods be incrementally extended "on the fly" and guided in response, at least in part, to a communication signal from the external communication source" as recited in the independent claims 21 and 35.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
